

At the LFJM, students are taught languages in separate groups to regular classes based on their language profile. These 'progression groups' are aligned with the Common European Framework of Reference for Languages (CEFR): from A1 (basic user) to C1 (proficient user), plus the International Section for students at an advanced level (see separate application form for the International Sections). To ensure that each student is placed in a group corresponding to their skills, please complete a certificate for each language your child wishes to study at our institution. Without certificates, we cannot validate the enrollment.
